

AXOR

AXOR UNO
FORM FOLLOWS PERFECTION

AXOR UNO

PURISM.
IN PERFECTION.

03

Simplicity of forms. The aesthetics of construction. The original purists let things speak for themselves. AXOR Uno perfects purism. With pipes, the most elemental means of transporting water. Simplest design. Perfectly executed. Subtly raised to the golden ratio. This

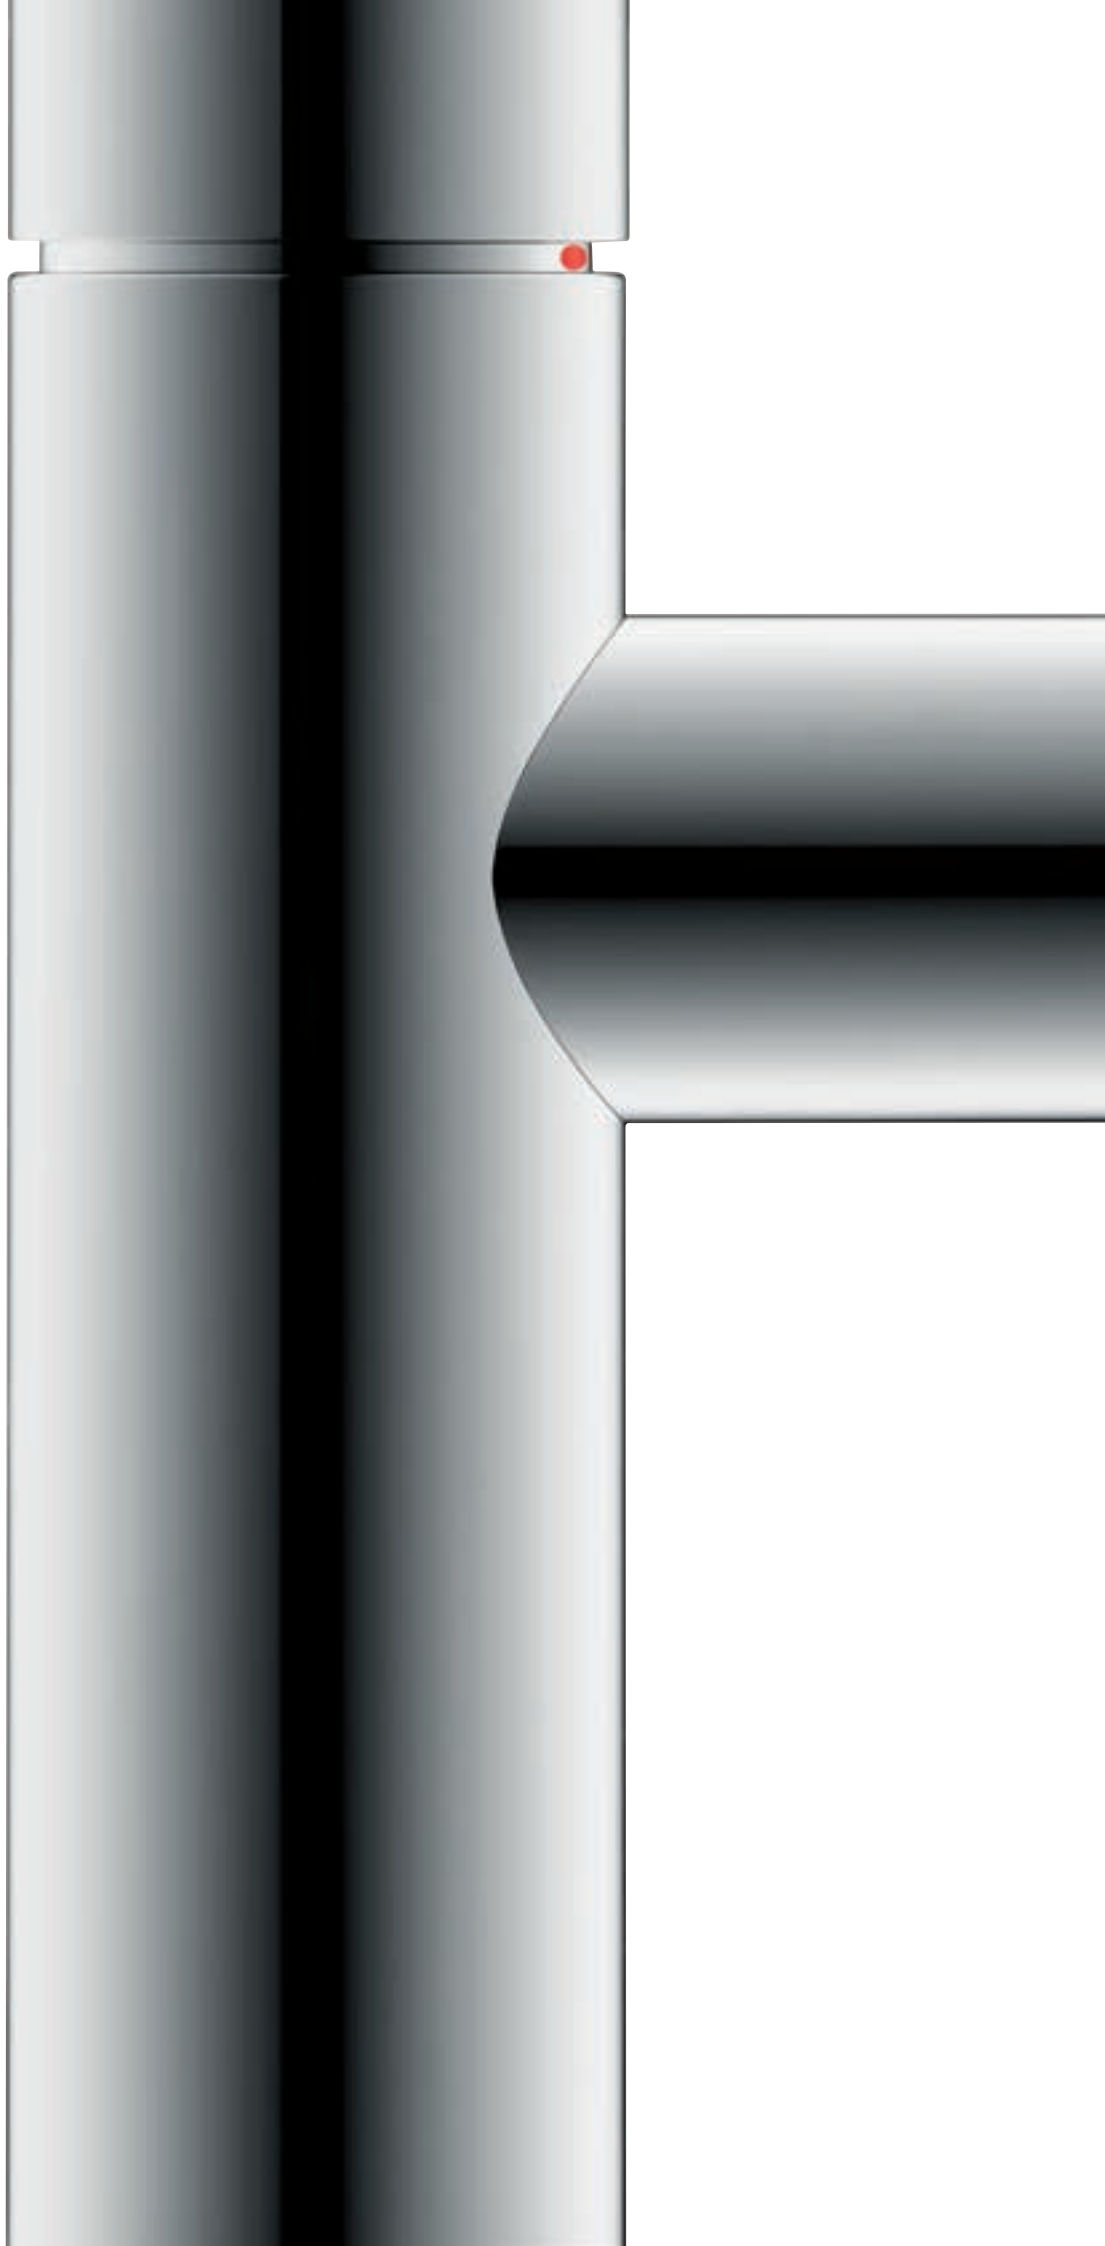

ascetic form exudes a unique radiance. At the wash basin. In the shower. At the bathtub. Radically functional. Radically purist. In perfection.

Design: Phoenix Design

Purist design at its best: from radical to gently curved. Style-defining, striking proportions. Clear-cut. With precise contours.

A clear design principle: two cylinders. A marriage of precision.
At right angles. Consistent in construction. Radically purist.

Maximum ergonomics, minimal design. The loop-handle.
Or the Select button. The purist form of operation. Outstanding.
In form. And function.

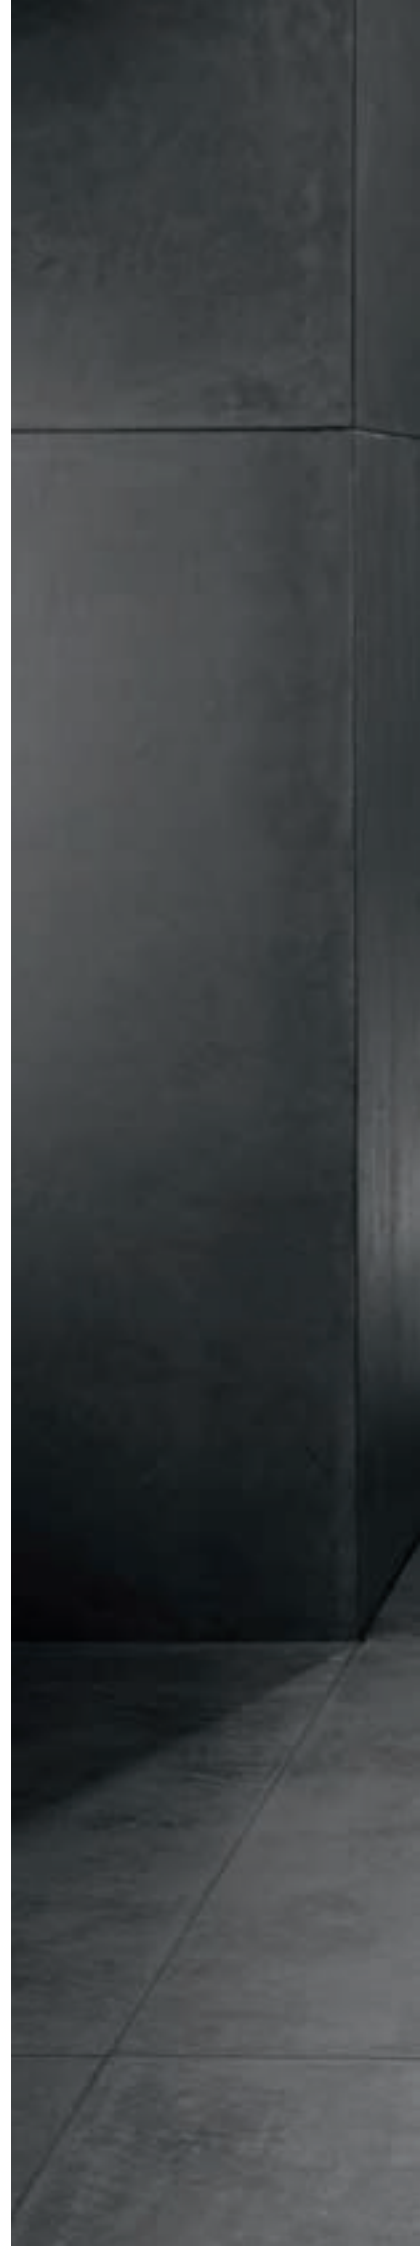

The innovative Select technology is perfection itself. It opens and closes the mixer at the touch of a button.

Operation reduced to the bare minimum: on and off. Separate from the temperature handle. As with the single-lever basin mixer. With the operating button on the spout at the front. Purity in its finest form.

The elevation of purism. The floor-standing basin mixer - sculptured to perfection. Refined with the exclusive Polished Brass surface: elevation one step further.

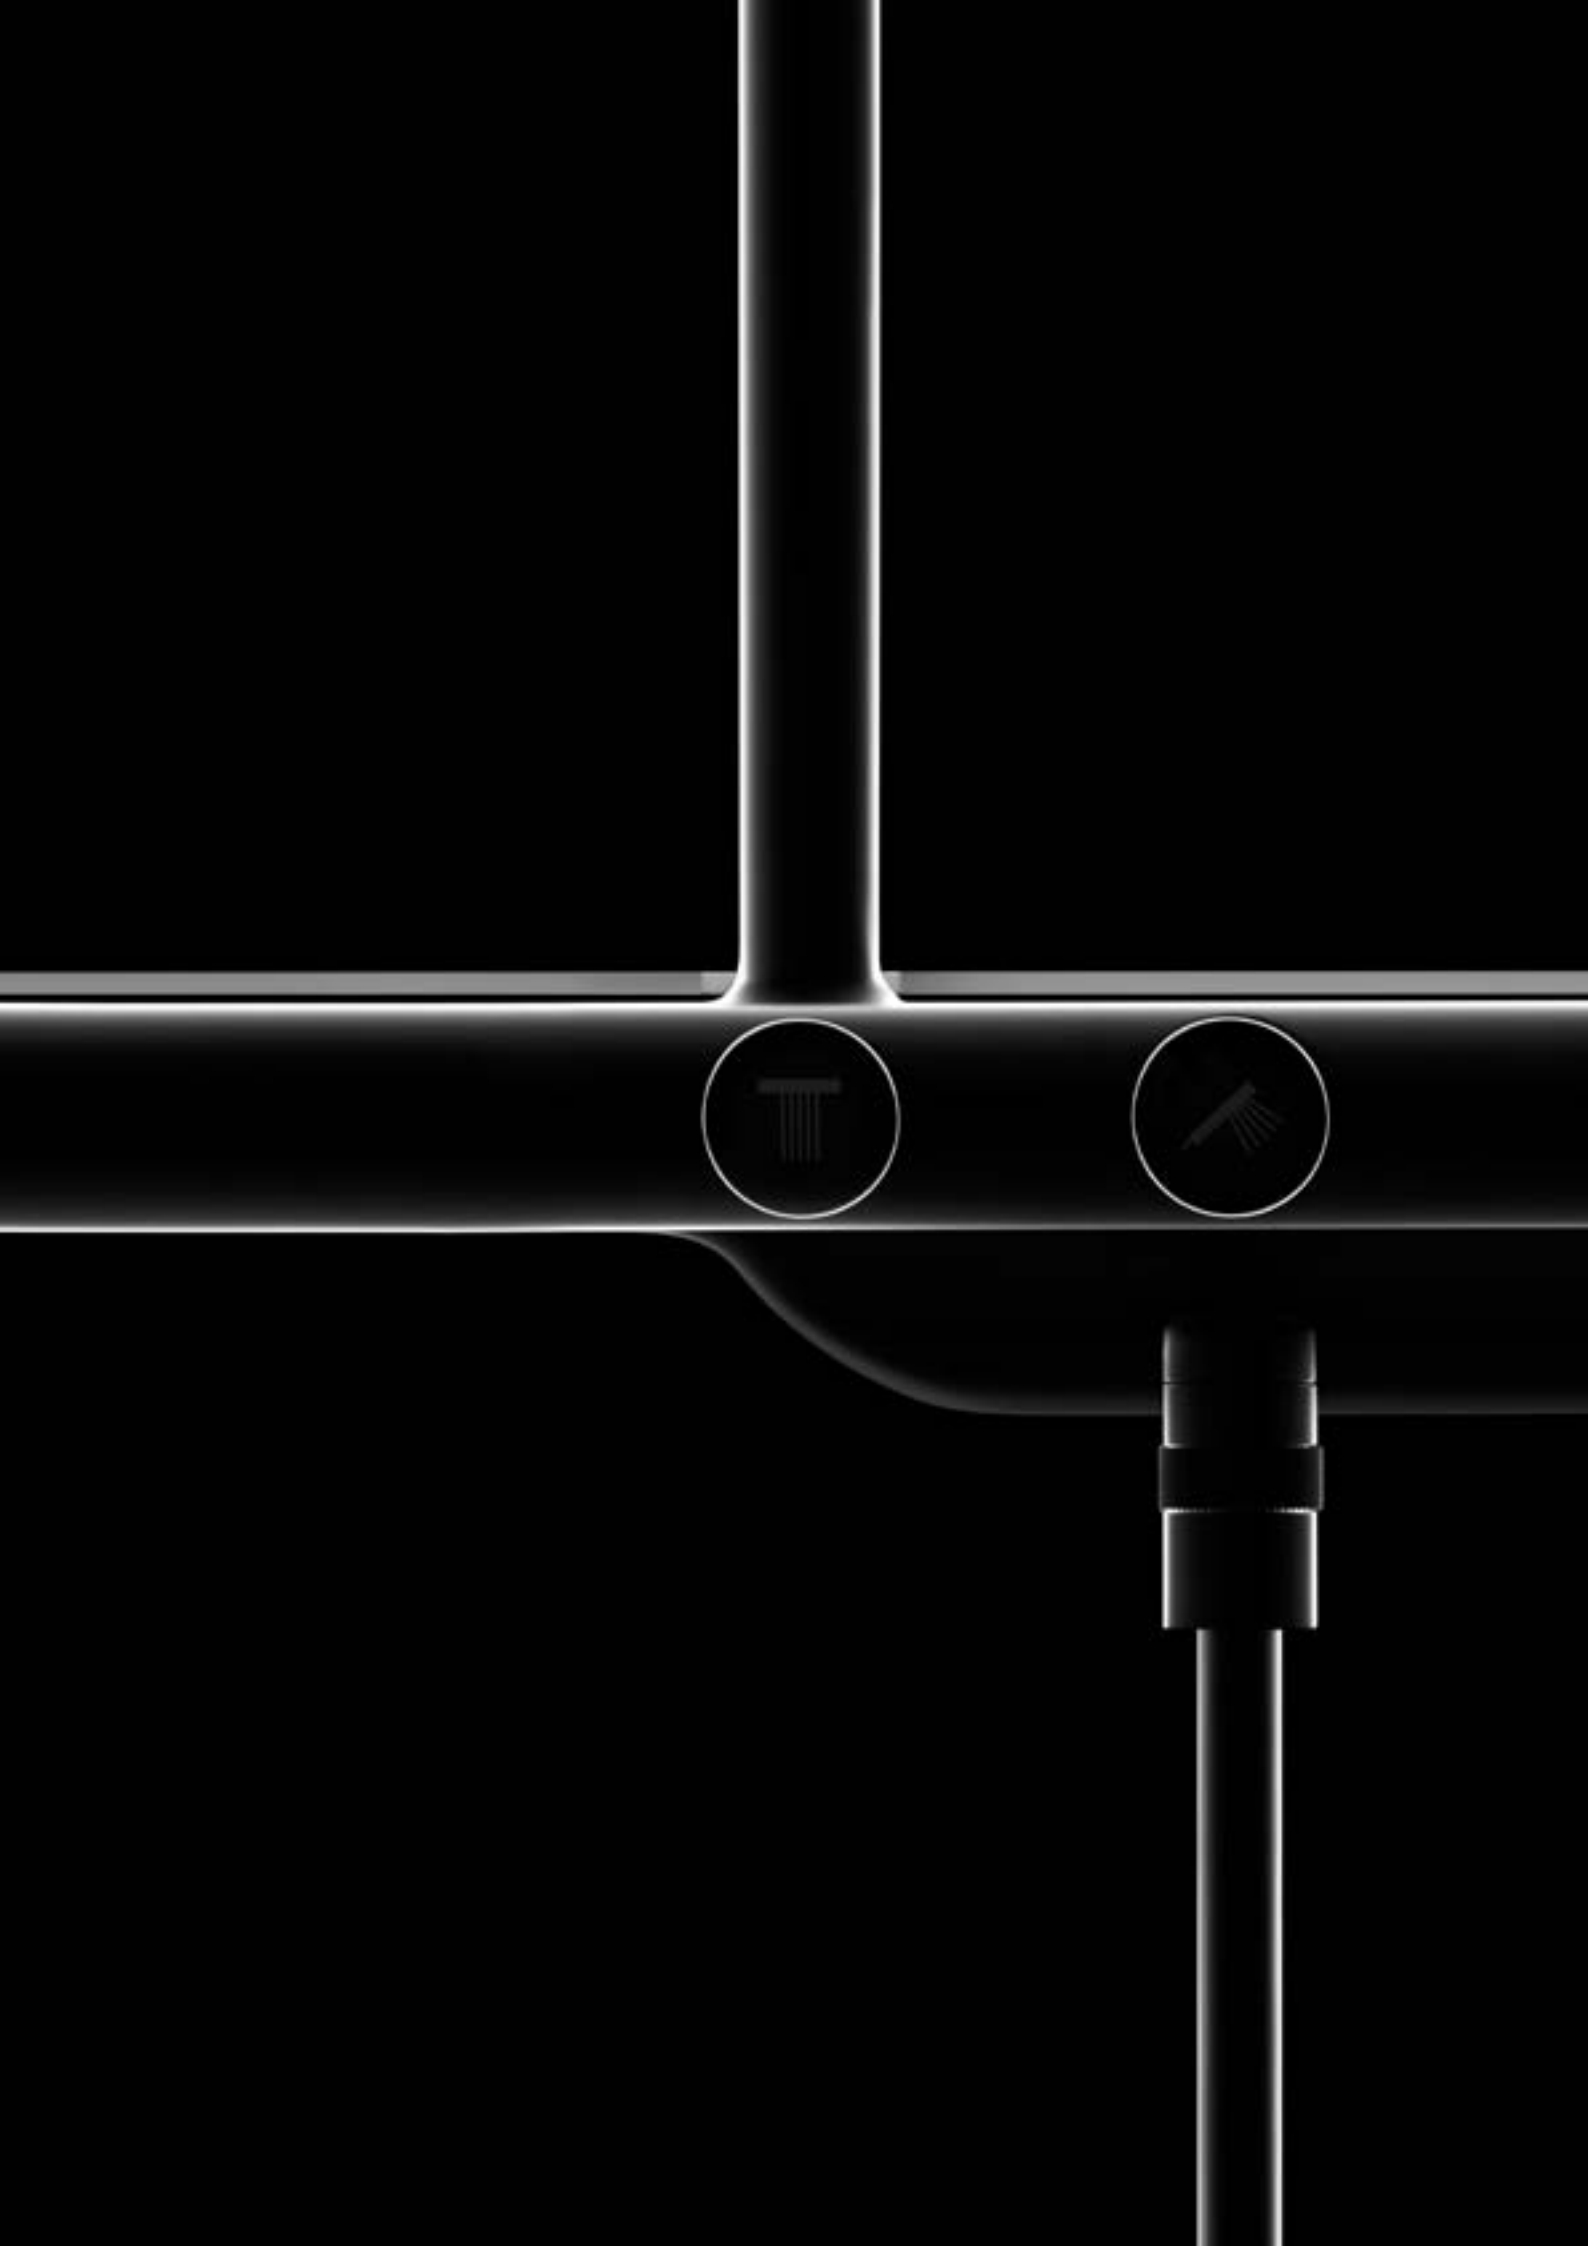

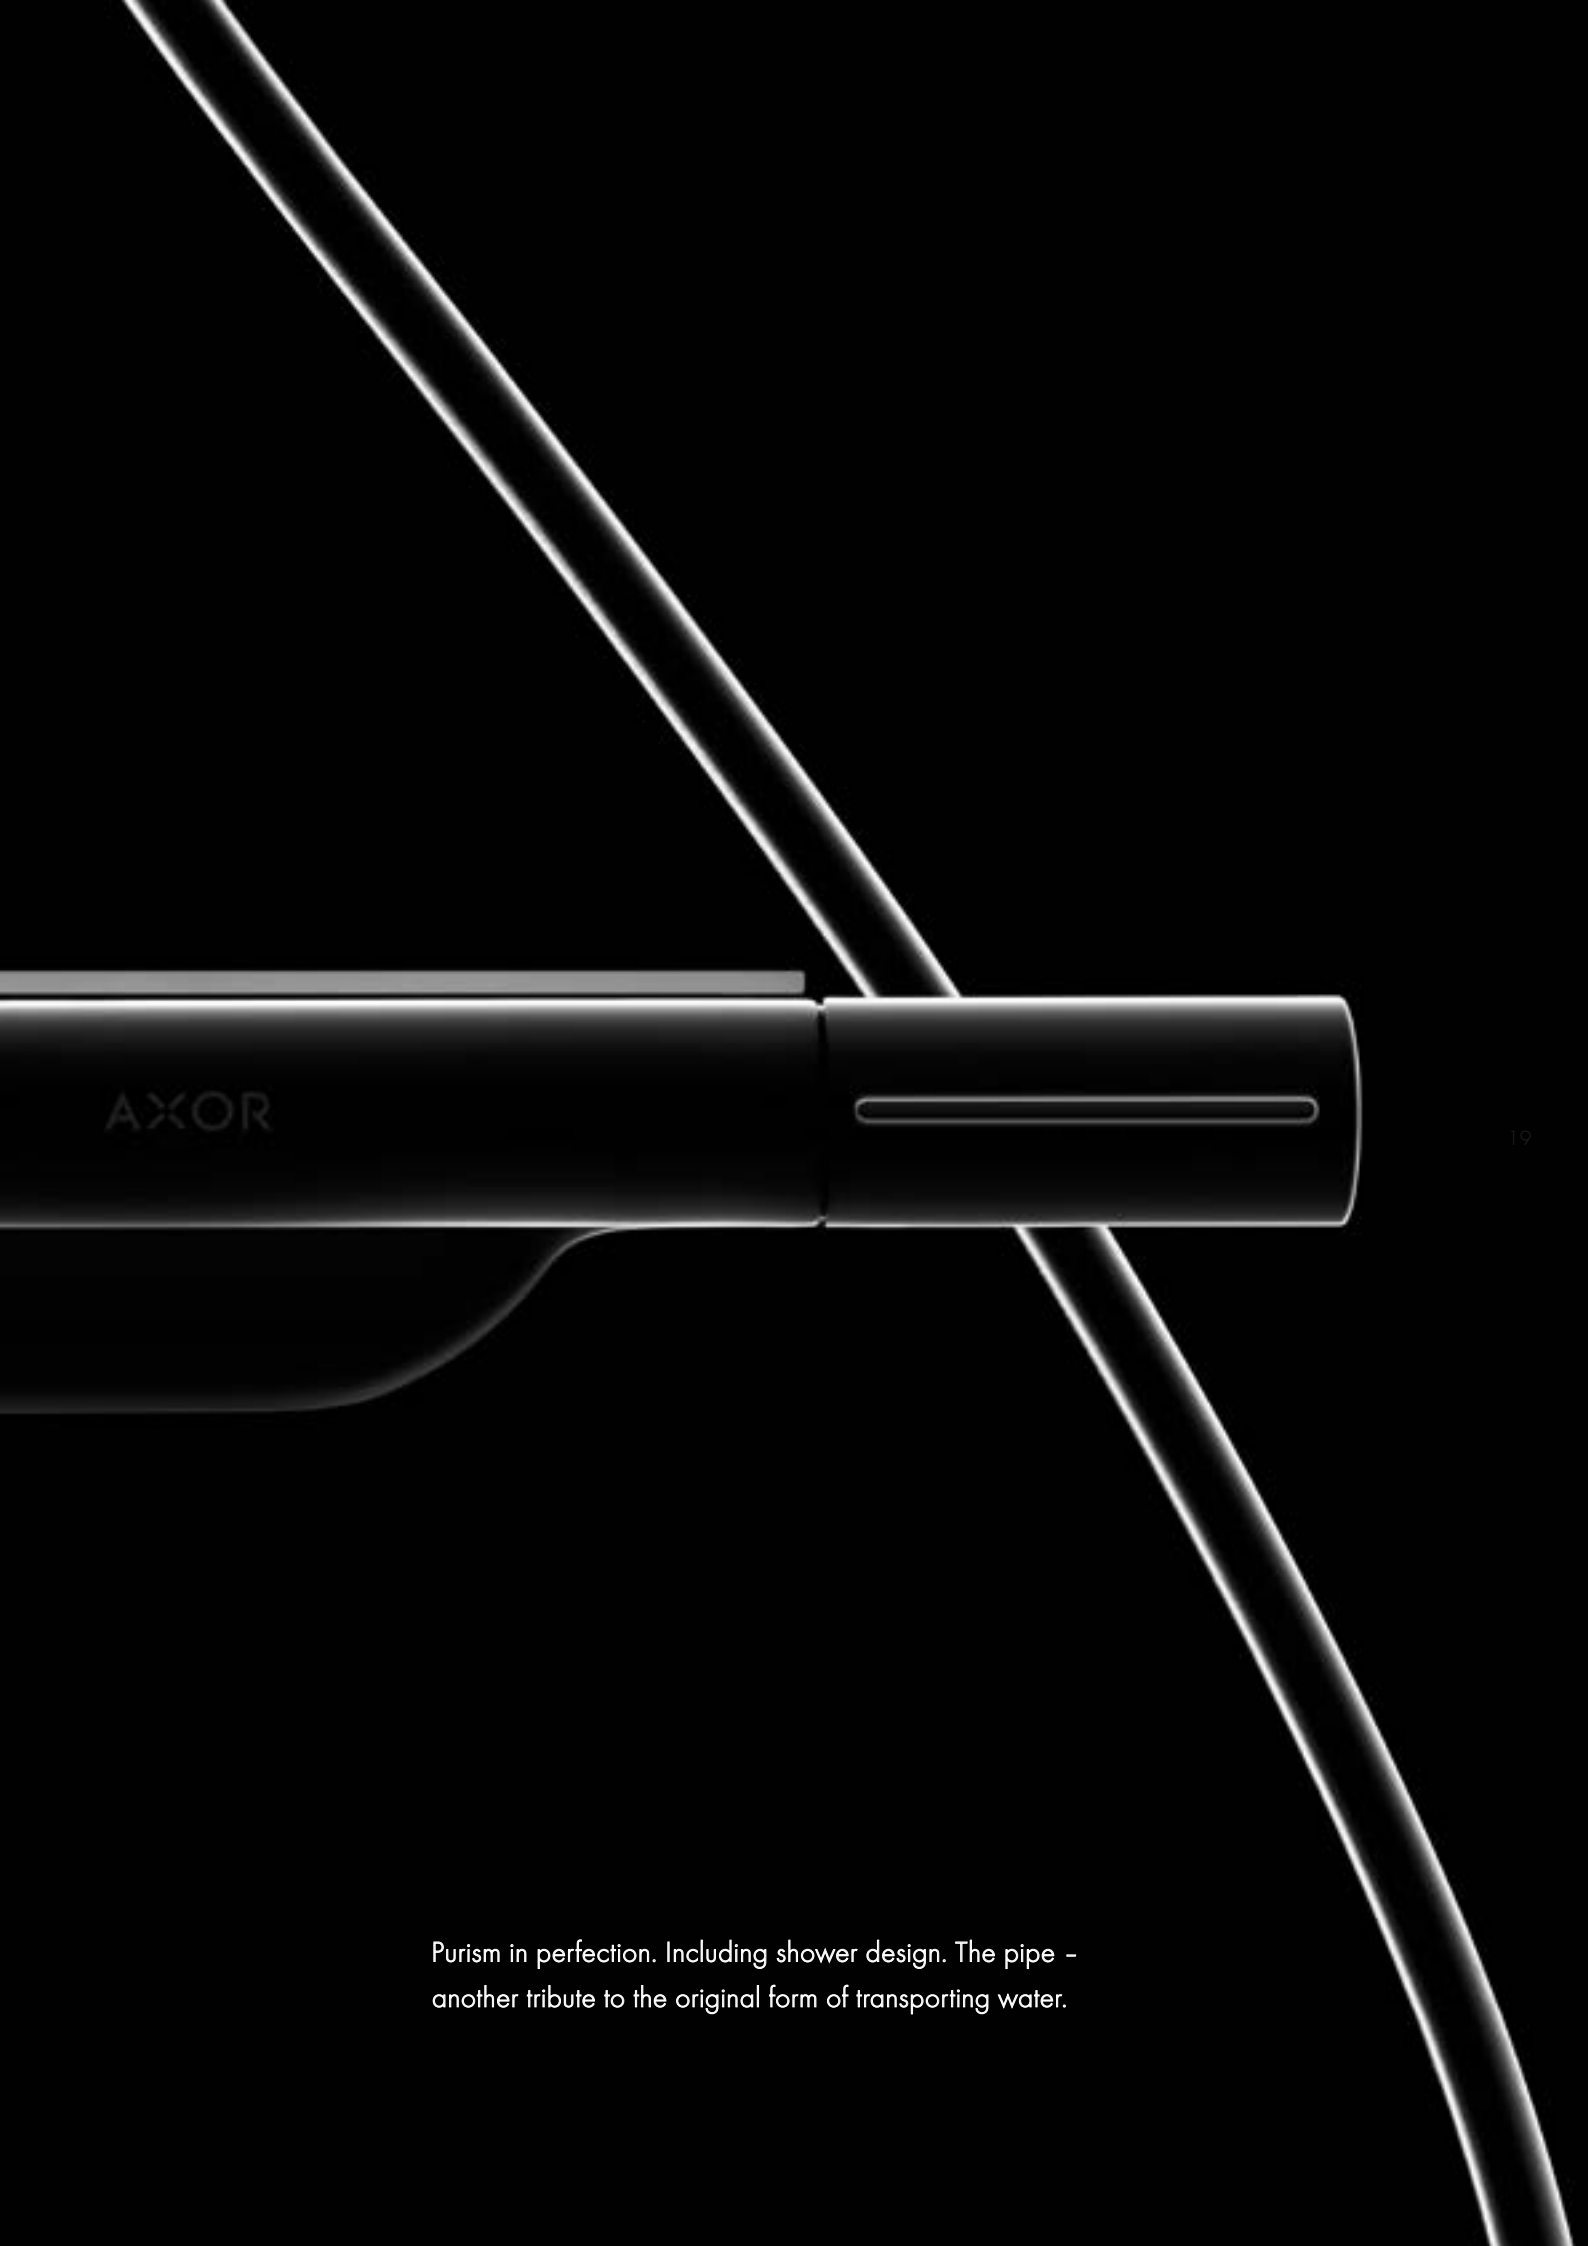

Purism in its most fascinating form: from spout to handle design. From gently rounded to clear right angles. Perfect examples: three-hole mixers.

Uncompromisingly linear - on the wall as well. Perfectly functional. At the core is the Select button with its purely mechanical functionality. A long-lasting innovation. In Brushed Nickel, the wall-mounted mixer interprets the material chosen by the first purists: steel pipe. In its authenticity and rawness. The quintessence of purism.

AXOR

Purism in perfection. Including shower design. The pipe - another tribute to the original form of transporting water.

AXOR Showerpipe in traditional pipe appearance. The perfect complement to AXOR Uno – even extending to the shower design. Excellence across the board. In its purist design. As in its functionality. Two buttons, an intuitive operation. For controlling the hand or overhead shower. Just as classy and spacious – the mirror glass shelf. The depiction of top quality and individuality: the showerpipe in the special Polished Brass surface.

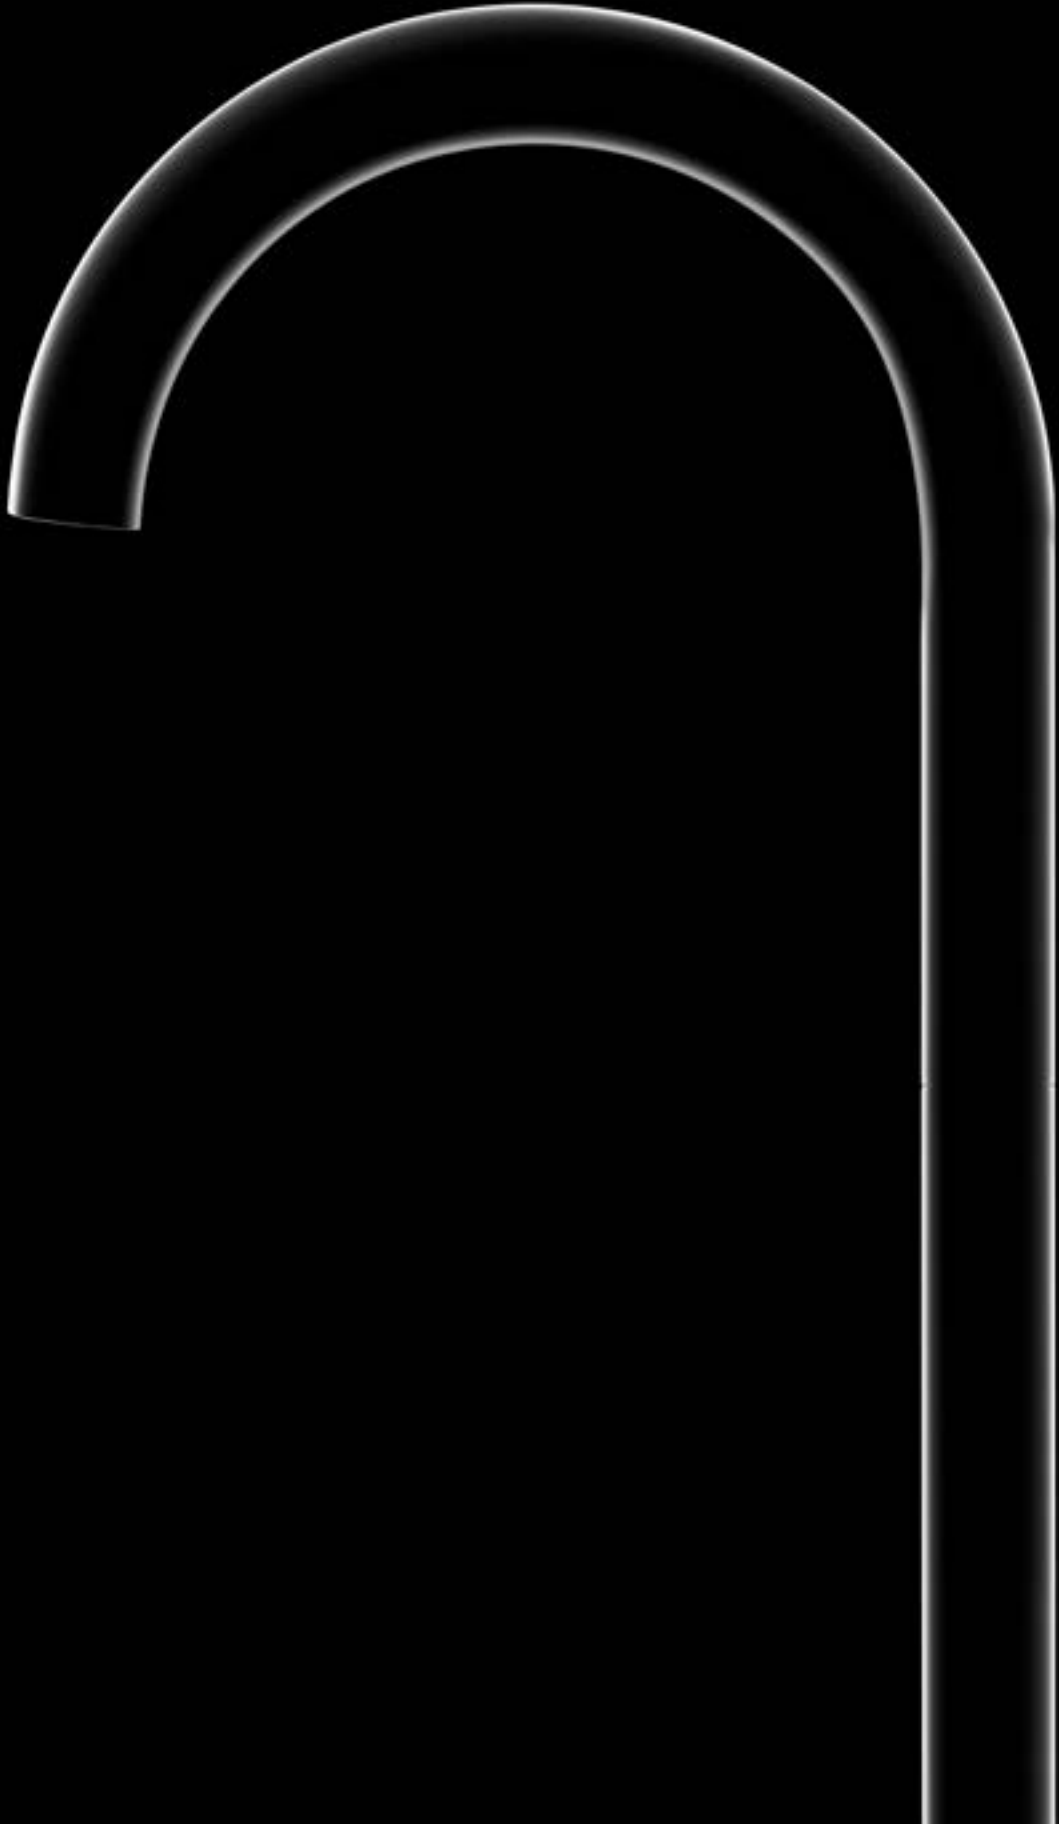

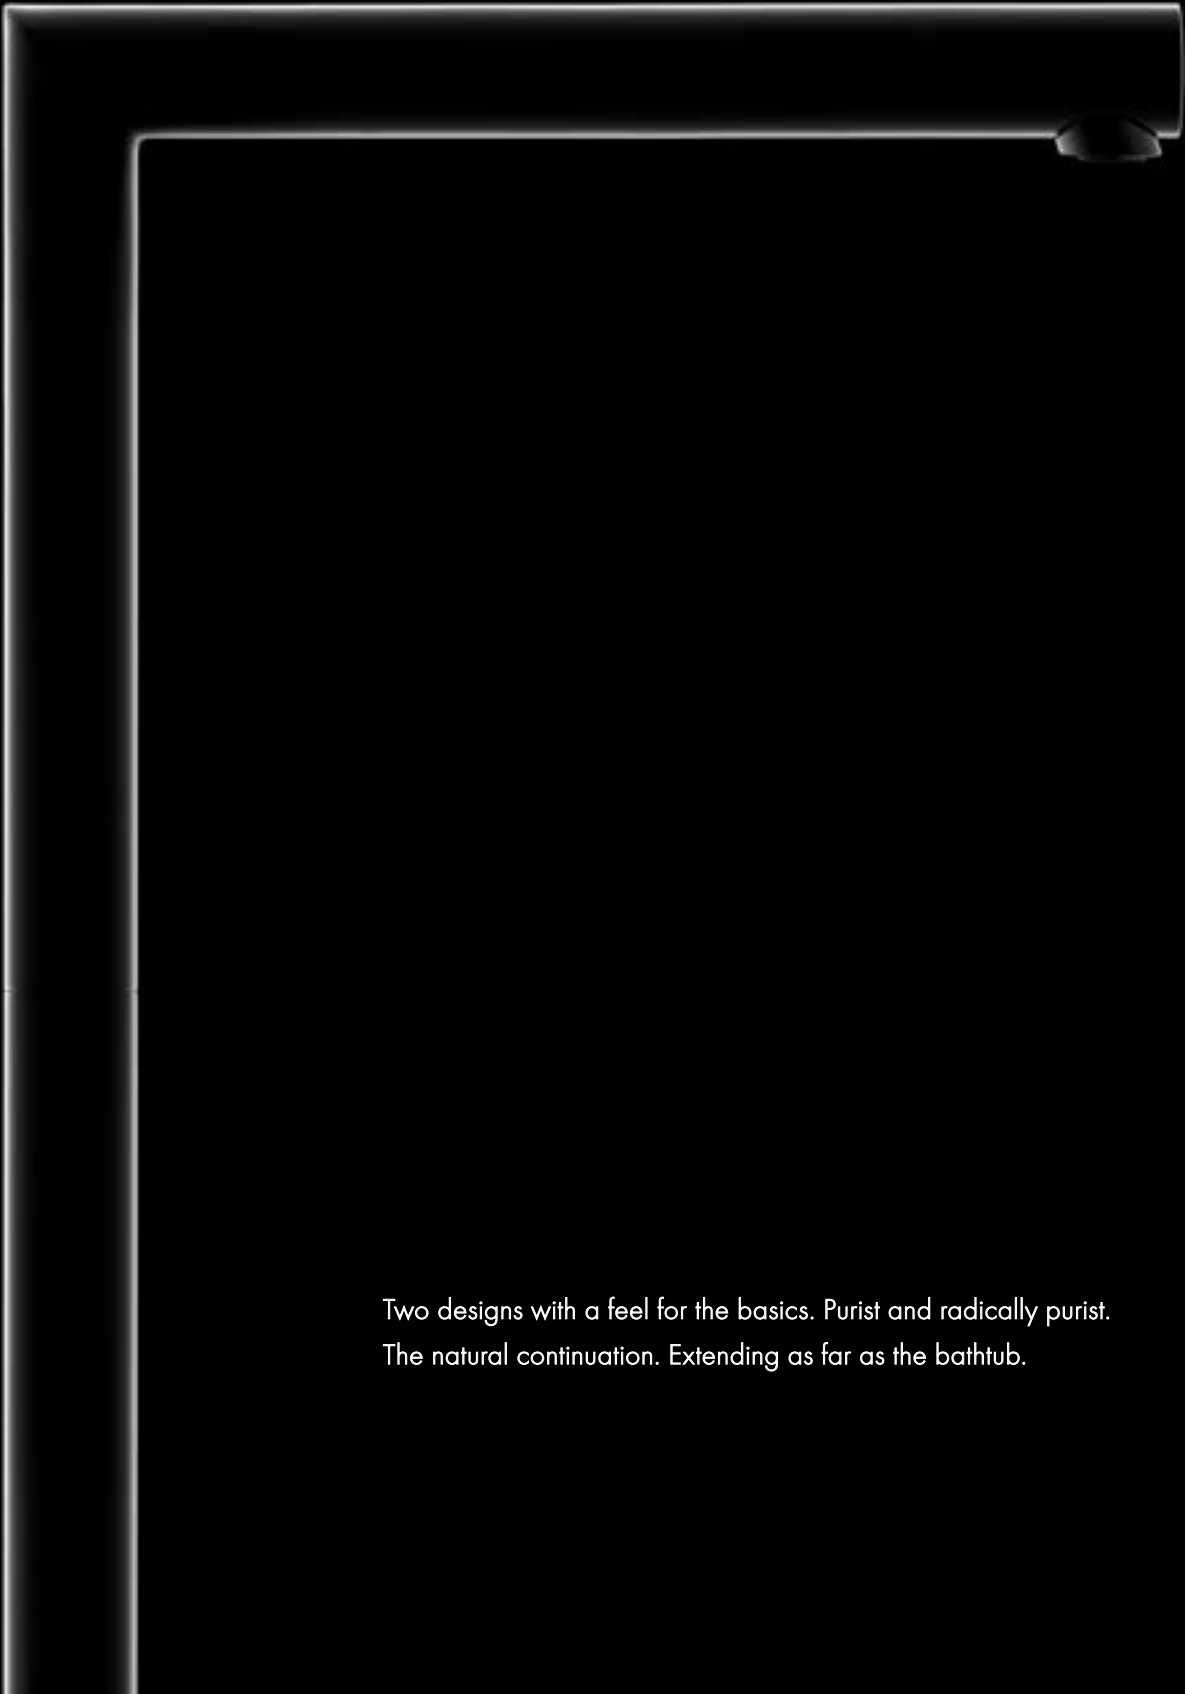

Each individual product an expression of precision. The well-proportioned AXOR overhead shower. For the first time combined and perfectly in tune with the AXOR thermostat for exposed concealed installation and hand shower. Here not visibly connected with the overhead shower. A tribute to the traditional pipe look. Therefore the ideal composition for an AXOR Uno bathroom.

Opening the overhead shower reveals the latest innovation in spray design: PowderRain and its gently enveloping drops. A highlight in the shower. Perfection in form and function.

A further combination option with the overhead shower: the single-lever shower mixer for concealed installation.

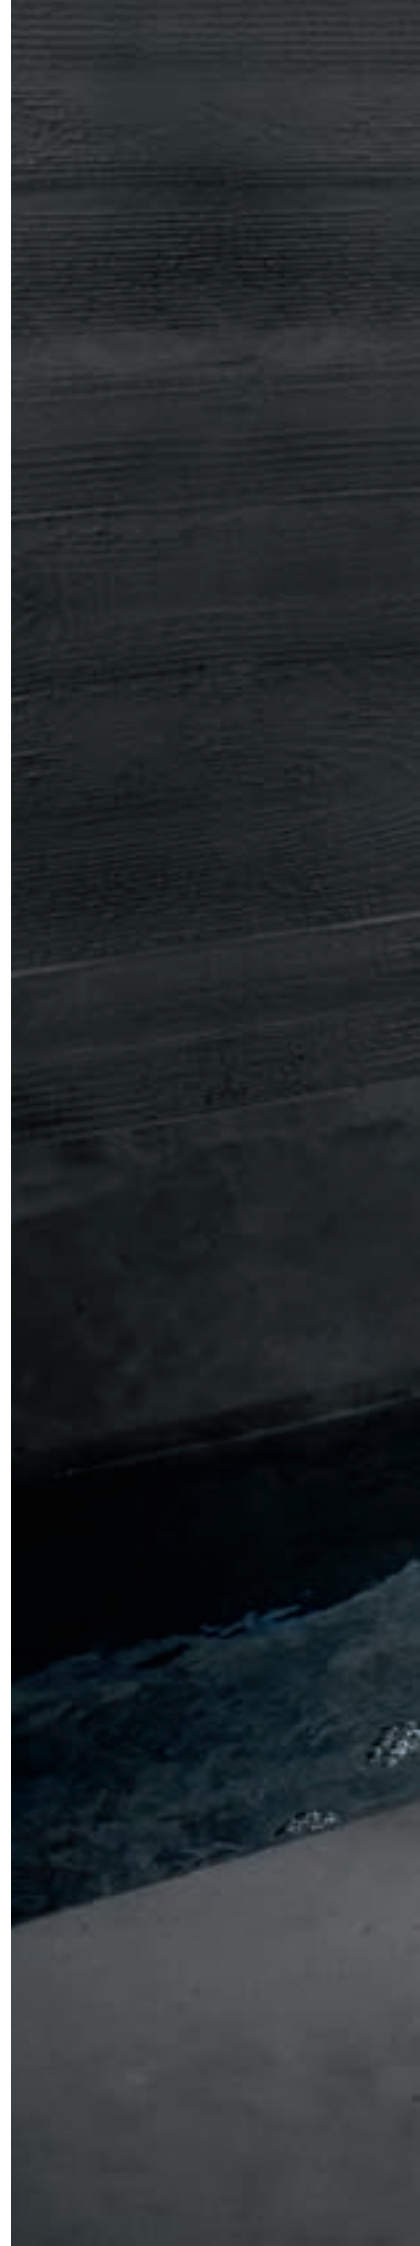

Two designs with a feel for the basics. Purist and radically purist.
The natural continuation. Extending as far as the bathtub.

Ergonomic perfection in the bathtub. Like the AXOR Uno three-hole rim-mounted mixer with loop-handle. Gently curved from the handle to the hand shower.

The cream of floor-standing mixers: AXOR Uno.
Purism in its purest form at the free-standing bathtub.
With separate or integrated operation.

WASH BASIN ZERO

Single lever basin mixer 110,
zero handle, with pop-up waste set
45001, -000, -820, -930

without pull-rod
45002, -000, -820, -930
(not shown)

Single lever basin mixer 80,
zero handle, without pull-rod
45005, -000, -820, -930
(not shown)

Single lever basin mixer 200,
zero handle, without pull-rod
