EXPERIENCE
THE PREMIERE

SUPERPLAN ZERO – A shower floor masterpiece made of steel enamel

DESIGNED BY WERNER AISSLINGER, STUDIO AISSLINGER

Accessible from three sides without steps.

Waste especially close to the wall and an even slope for a consistently level surface.

Generous design, seamless transitions for small and large bathrooms.

Clear edges and sharp corner radii for minimum joints and a uniform look.

Up to 25 percent lower installation height* for easy, floor-level installation – even for large formats.

Easy installation on screed or any other floor covering. Install almost flush with the floor with the low-profile support – thanks to the low installation height.

* Compared to the KALDEWEI SUPERPLAN.

55 dimensions – flexibility for your planning
